

Testimonial letter
for CostBusters Hungary Kft.

7th March, 2012.

To Whom It May Concern:

I've never heard about CostBusters Hungary Kft. before, I didn't even know that there were such a comprehensive overhead cost reduction service available on the market. Anyway it stood me in good stead when they offered their services. I felt that there were cost saving opportunities in our overhead but we did not have resources to identify them. I was especially curious on the IT; the landline, the mobile and the internet services.

I was a bit worried that the cost reduction project would request lots of energy on our side as well, and CostBusters would take too much time from us. Luckily I haven't experienced it, and none of my colleagues complained about that.

I was also a bit concerned that the new solutions would be worse because they are cheaper. Among the many innovations that were introduced by CostBusters, there was only one that did not please everyone; half of our staff liked it, while the other half liked the old one better. We had to accept that it's impossible to please everyone, so we accepted the new solution because it was 46% less expensive.

Regarding the total cost saving we got what we expected. Especially at the field of IT CostBusters brought us significant savings. They even solved us something that we knew it was unnecessary cost, but we did not know how to get rid of it.

CostBusters completed us a very extensive cost saving project. I recommend them for all company's management that employ more than 50 employees.
